

VoIP

Save with VoIP. Clear calls, pure per-second billing and free branch-to-branch calls.

Jenny VoIP transports your telephone calls over the Internet, instead of using the traditional telephone landlines. Jenny Internet prioritises the Voice over Internet Protocol specifically for Jenny VoIP, to ensure crystal clear phone calls between you and your customer, as well as free inter branch calls between you, your branches and your business staff.

Benefits of Jenny VoIP

- Per-second billing bundles.
- On net calls are free (Jenny VoIP to Jenny VoIP).
- Inter-branch calls are free (Jenny VoIP to Jenny VoIP).
- One telephone number will ring at multiple branches.
- Flexible Jenny VoIP lines - add multiple channels or telephone numbers.
- Easy to change and upgrade.
- Excellent prices to all cellular companies.
- Unused funds included in the bundle are carried over to the next month (for a maximum of 3 months).

With no physical landline installation, setting up Jenny VoIP can be done as quickly as you have a Jenny Internet connection

Jenny VoIP is not reliant on landline installations, cutting out the aggravation of dealing with traditional land based telecom companies. With no physical landline installation, setting up Jenny VoIP can be done as quickly as you have a Jenny Internet connection.

This gives you, the business owner, the possibility to grow your business and internal telephone network at a faster pace, without having the hassle of applying for additional lines. Set up your Jenny VoIP according to your business telecommunication needs.

Jenny VoIP offers significant rates savings

Jenny VoIP rates offer significant savings on national calls, as well as excellent prices to all cellular companies, with no need for a premi-cell from every cellular provider. Jenny VoIP bundles give you major savings with the benefit of pure per second billing, you simply pay for what you use and not a second more.

A company can choose a bundle which suits their current call usage. If the bundle funds are depleted, Jenny VoIP standard rates apply. Unused funds included in the bundle are carried over to the next month, for a maximum of 3 months. Upgrading bundles are as simple as an email to the National Jenny Callcentre.

Businesses benefit greatly from Jenny VoIP

Businesses benefit greatly from Jenny VoIP, as all inter-branch calls are free, cutting down on huge business overheads. All on-network calls are also free, this means you will not be billed for any Jenny VoIP to Jenny VoIP calls within the Jenny VoIP Network.

Keep your business contact numbers

Keep your business telephone number by porting your existing landline numbers. We take over the hassle of dealing with the land based telecoms companies, to ensure your number porting is done swiftly.

With Jenny VoIP, you can have one telephone number that rings at multiple branches, lines which are flexible and multiple channels or telephone numbers which can be added to your Jenny VoIP package. Changing and upgrading your package is simple, whether you need 10 or 200 channels. You specify, we deliver.

Examples

Here is an example of how Jenny VoIP billing will work:

If you purchase a Jenny Voice 500 bundle, the first R500 of your telephone calls will be billed at pure per-second. This means if you talk for 10 seconds, you will only pay for 10 seconds.
