

Standard Hotspot

Make money and attract customers to your business

A Jenny WiFi Hotspot is an area that provides Internet access over a local wireless network or an Internet café. The customer will need a voucher to access Internet: the vouchers are provided by the Jenny WiFi Hotspot owner.

Why get a Jenny WiFi Hotspot?

- Quick and easy to install.
- Create your own custom vouchers.
- Easy to use.
- Attract customers to your business.
- Make additional income.

Attract customers to your business

Set up free vouchers for your business. Free vouchers have time and data limits. You will also be able to set the time period between free vouchers per customer. e.g allow a customer one free voucher per day or per week. This way the Jenny WiFi Hotspot is abuse free.

Make money by selling vouchers for Internet access

Set up vouchers for customers to purchase at your paypoint. This scenario is usually used by Internet cafés and coffee shops. Voucher profits are yours: the Jenny WiFi Hotspot has the same price no matter how many vouchers you sell.

Mix of free vouchers and pay vouchers

An example would be to setup a 30-minute voucher and only allow a customer receive one per day. Once the voucher is used

up, the customer will have to purchase a voucher to access the Internet again.

How it works

To connect to the Hotspot, the customer must be in range of the Jenny WiFi Hotspot wireless signal.

The customer can access Internet from his computer or device by simply scanning for wireless networks and selecting the 'Jenny WiFi Hotspot' network. The customer will automatically be redirected to our login page - by filling in the voucher code, the customer will be connected to Internet.

Vouchers can be obtained at the business.

Free voucher via SMS

Custom vouchers can easily be created on the system. Simply choose a data and time limit. Each voucher has a sequence number: if you create 100 vouchers, you can book them in as stock on your accounting system. Only the owner of the hotspot can access the voucher creation page.

Recommended Pricing Structure and Voucher to create

	Data / Time	Price
	30 Minutes or 30 Mb	R 10.00
	1 Hour or 60 Mb	R 20.00
