

Estate Fibre

Fast fibre for modern estates. No trenching.

Jenny Estate Fibre connects every home or flat in your estate to high-speed Internet without digging up roads or gardens. One provider manages both the fibre network and the Internet service, so residents have one number to call.

Why choose Jenny Estate Fibre?

- No trenching. Roads, verges and gardens stay as they are
- One provider for infrastructure and Internet service
- Fewer contractors needing access to your estate
- Residents notified who is coming and which vehicle they are driving
- Free fibre access for the estate admin office
- Wireless backup on the estate's main link
- Competitive, market-related pricing
- 7-day call centre support for residents

Built for estates

Trustees carry the complaints when connectivity fails and the concerns when unfamiliar vehicles arrive at the gate. Estate Fibre addresses both: one accountable supplier, fewer contractors on site, and a network we control end to end so speeds stay consistent for everyone.

What's included

- Fibre connectivity to every home and flat
- Free fibre access for the estate admin office
- Wireless backup on the estate's main link
- Standard service is asymmetrical, with upload at 50% of download
- Symmetrical service available at 50% above the standard price
- Market-related pricing commitment

Support you can rely on

7-day support for residents and trustees through our call centre. Because we support both the fibre network and the Internet service, faults are resolved faster with one point of contact. Only Jenny-approved contractors access the estate.
